

Advocacy - Governance - Renewal

13th August, 2014

To,
The Prime Minister of India
South Block, Raisina Hill,
New Delhi – 110001

Respected Sir,

Like millions of Indians, we have been immensely heartened to read and hear of your concern for the ordinary needs of ordinary citizens.

We note in particular something that has long concerned our work in Mumbai, a city suffering from the way it is run and citizen energies have been employed: Solid Waste Management and mobilisation of all resources to help.

We enclose a paper on PEOPLE Public Private Partnership in this field. We could not expect that you would sight this yourself, but we do hope that you will entrust it to hands that will deal with it knowledgeably and respond. We have uploaded this as a pdf. File on your web portal www.mygov.nic.in under **Swachh Bharat** (Clean India) campaign.

Here, we look forward to contributing some experience to this initiative and, if nothing else, a boundless desire to correct things.

With regards and respect,

Anjali Pandit
Associate Director
